

Project Initialization and Planning Phase

Date	29 September 2026
Team ID	SWTID-2026-5955
Project Name	PocketSmart AI: Your Smart Budget & Recommendation Assistant
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers.

For PocketSmart AI, the problem focuses on people who find it difficult to manage budgets and choose suitable products or services across different platforms.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A customer planning a purchase.	Find a suitable option within my budget.	There are many choices and price ranges.	It is difficult to compare everything manually.	Uncertain about the right choice.

PocketSmart AI – Customer Problem Statement

Completed using the project's stated challenge: budget management is difficult because of the wide variety of products, platforms and price ranges.

Problem Statement (PS)	I am (Customer)
PS-1	A person planning a purchase, home setup, party, or occasion with a limited budget.
I'm trying to	Find suitable products or services that match my budget, preferences, and specific needs.
But	There are many products, platforms, and price ranges, so it is difficult to compare options and decide.
Because	I do not have one personalized system that combines budget planning with recommendations from different platforms.
Which makes me feel	Overwhelmed and uncertain about making the right choice within my budget.

Final Problem Statement in One Sentence

Customers need a simple, personalized way to plan and manage their budgets while receiving suitable recommendations across different products, services, and platforms, because comparing many options and price ranges manually can be overwhelming.
